Dear Parents / Carers,

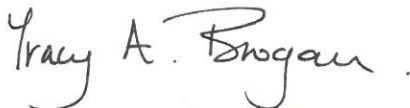

UPDATE – School Meal Service – Temporary Reduced Provision

I would like to thank you for your continued patience concerning the situation with provision of hot meals. After discussions with the Central team at Astrea, I am delighted to say that the necessary work to replace the equipment has been agreed. The aim is for all of the work to be completed in the half term break. To this end it will be necessary for us to serve only cold food on Friday 19 October. This will allow the contractors to take out the old equipment on Friday in preparation to start installation on Saturday.

I would like to thank Laura Johnson and her team of staff who have continued to provide the best provision possible in very difficult circumstances and to the Caterlink team at Longsands who have produced the hot food offsite for this half term.

If all goes well and there are no unforeseen circumstances, the kitchen should be fully functional straight after half term, with a return to our usual excellent choice of meals and snacks at break and lunch time.

Yours sincerely

Tracy Brogan
Principal
